### Physician-Approved Seat Support for a Second or an Hour

No matter which stool you choose, both Rhino and Rhino Plus option combine the specific level of comfort you're looking for with unique and long-lasting toughness.

- 15" seat-diameter Rhino stools are designed for quick sitting
- Rhino Plus adds a tough 16-gauge steel seat pan and extra foam cushioning for longer durations of sitting

All Rhino stools are built tough with a puncture-resistant urethane skin that withstands bleach and most chemicals

Hand-adjustable height control

Hands-free height adjustment control

### Rhino Hand-Adjustable Physician Chairs

- Pneumatic hand-control provides height adjustment within a 5.25" range
- Perfect for desk areas

## Laboratory Seating Requires a Special Combination of Features

Each chair and stool on this page has been selected as an ideal seating choice for any laboratory. These seating options provide the ergonomics required for the technician, in addition to features that enhance reliability to withstand the worst spills and toughest clean-ups.

Pneumatic height adjustment range is 27" to 34"

ML9367 Blue

ML9367 Black shown with ML3523 Seat Back

Durable soft polyurethane seat

Adjustable 18" foot ring

Elevated five-star 26" chrome base with 2" dual-wheel casters

### Comfort on a Budget

The Sit-Star Stool offers a level of comfort atypical of a smaller seat design. The tractor-shaped seat is constructed of PVC-coated gel molded on a metal frame.

- 250lbs weight capacity
- Contoured "bucket" seat pan promotes good leg circulation
- Easy to clean and disinfect
- 26" Dia Base

### At Last, Seating Designed Specifically for Individuals 5' 4" and Shorter!

Finally, a chair designed for petite people. If you're 5' 4" and under, you'll be able to sit all the way back in a Dimension chair or stool because the seat depth is only 17". This allows you to use the back rest properly without the front edge of the seat cutting into the back of your legs. Available with or without arms and your choice of vinyl or fabric upholstery.

- Generous cushioning and waterfall seat front eliminate uncomfortable pressure points
- Foot ring included on all models for added comfort
- Adjustable seat height, back height, back angle, seat angle, and optional articulating arms allow for a custom fit
- Seat height adjustability range of 5" for chairs and 7.5" for stools
- Fiberglass-reinforced nylon base guarantees years of sturdy support

**Built for All-Day Comfort**

ErgoTask seating combines the support of a high-back chair with the user-mobility of a mid-back chair. The tapered back give outstanding lumbar and thoracic support without the bulkiness of a traditional high back. The sculpted high-resilience foam seat cushion, contoured back cushion, and multiple adjustability (nine ways on chair; seven ways on stool) provide a customized fit. Optional sculpted arms adjust vertically and horizontally for better ergonomics.

- 250lbs weight capacity
- Enhanced padding in seat and backrest
- Integrated lumbar support helps prevent back strain
- Sturdy five-star base with hard-floor casters
- Chemical-resistant leather-like upholstery increases durability
- Contoured seat and back mold to user's shape
- 9 Ergonomic functions

### Wear and Tear Resistant Lab Stool

It takes a thick skin to survive in the healthcare environment. That's why there's no better choice for seating than a Rhino chair or stool. The Rhino line of seating solutions is built for prolonged use with steel frames and seat pans that give unmatched strength and stability. Rhino™ seating is known for its thick skin made from Pachyderm® urethane that is self-healing puncture-resistant, abrasion-resistant, and unaffected by most chemicals.

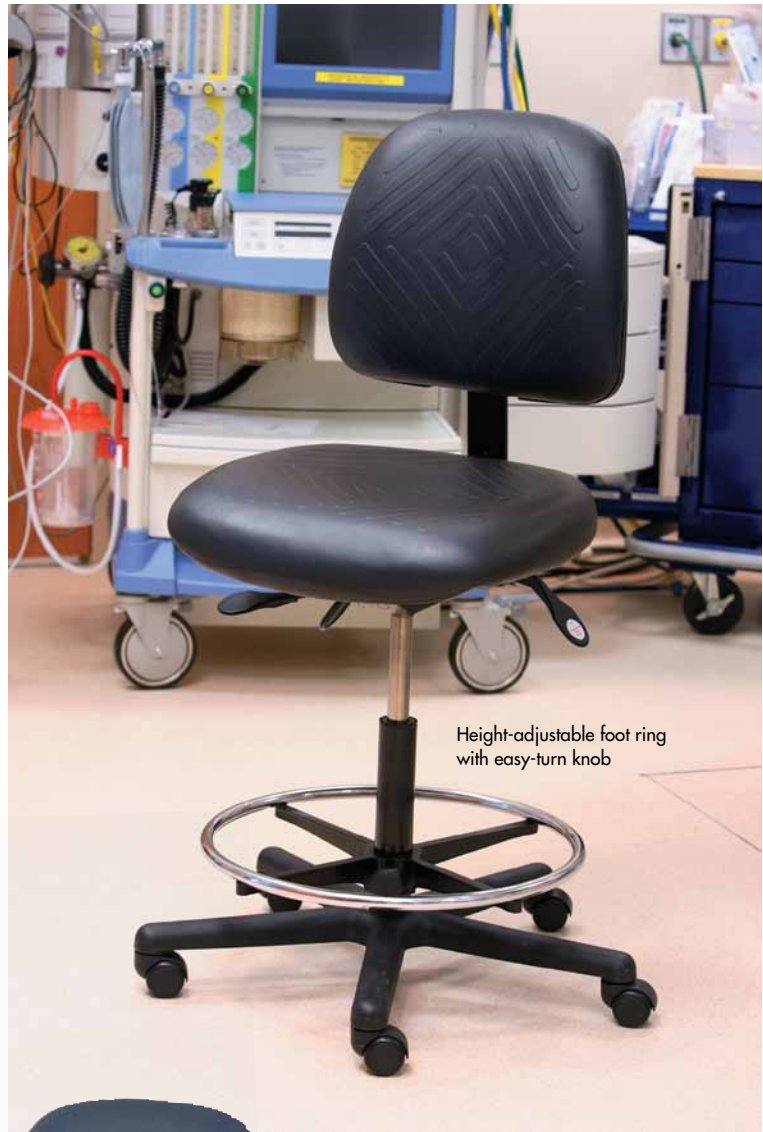

Comfort is never compromised with a Rhino. A patented process combines the thick urethane skin with a molded three-inch seat cushion. With enhanced features for comfort, strength, and durability, the Rhino is ideal for work in labs and hospitals.

- 350lbs weight capacity
- Stands up to repeated use through multiple shifts
- Contoured molded seat with waterfall edge
- Ten-year, three-shift warranty

**Your supplies don't have to stay in one place.** In fact, a cabinet on wheels is an easy way to create a mobile storage room and lessens the distance to travel between you and your patients.

**Rugged. Multi-purposed. Economical.** Transport carts are designed to be great in a pinch, to get you and the things you need out of the storage room and to where you're needed most.

**Roll Through Your Rounds with Ease** There's nothing quite like a cart to help get you and your supplies through a day of room-to-room blood draw rounds—with ease.

**Easy to Tear, Soft to Wear** Introducing FlexBan, the new standard in cohesive bandage tear-ability. Available only at MarketLab.

## Why MarketLab?

# There are partnerships and there's partnership with MarketLab.

Located in the heart of the Great Lakes near Grand Rapids, Michigan, MarketLab is the largest direct-mail cataloger of Unique and Hard-to-Find products for laboratory and healthcare professionals.

### Innovation & Expertise

Our product development team uses their knowledge from the laboratory, healthcare, and retail industries to bring you clever and helpful products designed to make your job easier.

### Fast, Friendly Service

You choose how you want to order – call, click, fax, email, or mail. MarketLab's friendly and professional Customer Care team is ready for your order.

### Personalization

To us, the only thing better than a unique and hard-to-find product is one that meets all of your needs. That's why we offer a variety of products that can be tailored to your exact specifications.

### Sourcing

Our Product Development Team not only comes from the laboratory and healthcare industries, they collaborate with professionals just like you to understand your challenges.

### 5S Lean for Healthcare

Our one-of-a-kind service for healthcare professionals combines our knowledge of the 5S Lean initiative with almost 20 years' experience as innovators and suppliers of unique and hard-to-find healthcare products.

### Dedicated Account Manager

Our inside sales team provides a single point of sales support for all your needs. We will work our team of product experts to evaluate your facility challenges, large or small, and we commit to recommending solutions tailored to meet your specific needs.
